

İsmail Emir Lambacioğlu

Junior Software Engineer

I am a dedicated frontend developer with a strong focus on creating intuitive, user-friendly interfaces and responsive designs. Aspiring to become a fullstack engineer in the future, I am honest, respectful, hardworking, and team-oriented. My goal is to continuously improve and contribute to high-performing projects that drive success.

skills

HTML	Bootstrap
CSS	TailwindCSS
JavaScript	NodeJS
React	PostgreSQL
React Native	Git
Java	Figma
TypeScript	Github
Next.js	Supabase

experience

August 2024 - Sep 2024

Frontend Intern

Jotform, Ankara/Turkey

- Developed new features for JotForm's e-signature product using React and TypeScript, improving platform functionality.
- Gained hands-on experience with SaaS products, contributing to JotForm's frontend team.
- Collaborated in a dynamic environment to deliver scalable, high-quality solutions for JotForm's applications.

July 2024 - August 2024

Mobile Developer Intern

CENTER SAU, Sakarya/Turkey

- Developed user-friendly SCADA interfaces in React Native with responsive layouts for mobile devices.
- Improved data presentation using charts, graphs, and interactive elements.

Apr 2024 - June 2024

Frontend Intern

Mobven, Istanbul/Turkey

- I worked hands-on with SCSS, Vue.js, JavaScript, and React to build high-performing and adaptable applications.
- I collaborated with peers during my internship to develop a practical AI project, leveraging modern frontend technologies.

July 2023 - April 2024

Frontend Intern

Turk Telekom, Istanbul/Turkey

- Created detailed documentation for Tivibu web and mobile apps, improving team communication and collaboration.
- Enhanced system performance by monitoring API calls and contributed to developing a web-based testing tool with the team.

Sep 2022 - Jan 2023

Frontend Intern

Alfatek, Sakarya/Turkey

- Developed real-world applications with Vue.js and GitLab as a Frontend Engineer Intern.
- Gained valuable experience and an in-depth understanding of modern web development.

education

Oct 2019 - Sep 2024

Sakarya University, Computer Engineering

GPA 2,82/4

Feb 2022 - June 2022

Czech Technical University, Software Engineering

Erasmus+
